

QUALITY MANAGER – GIGA TECHNOLOGY PLATFORMS

Established in 2007 at the University of Liège, **GIGA** is an interdisciplinary research center in biomedical sciences whose mission is advanced medical innovation. This institute encompasses more than 600 members (PI, senior researchers, post-doctoral scientists, thesis students, technicians) with expertise in medical genomics, *in silico* medicine, neuroscience, oncology, infection and immunity, and cardiovascular sciences. **GIGA** provides its members access to broad range state-of-the-art technologies through core facilities, including the Genomics platform (<http://www.giga.uliege.be/>).

GIGA is the only Belgian research center directly integrated within a university hospital, making it a major player in translational research where links between researchers and doctors are at the heart of the research activity.

*The GIGA Technology Platforms unit is **seeking to hire a quality manager** to implement a quality approach based on the ISO 17025 standard in the Genomics facility. She/He will be responsible for overseeing the perfect integration of this quality system into the daily operations. She/He will take care of auditing SOPs, instrumentation and software, personnel, reagents and consumables as well as all lab facilities warranting compliance. She/He will write and/or validate the documents of the quality management system. She/He will manage the documentation of the quality system put in place. She/He will organize and lead quality working groups. She/He will train staff to quality. She/He will plan and organize internal audits and will prepare and host external audits. She/He will develop indicators for monitoring the system.*

Profile

- A master or equivalent in a scientific discipline (Biological Sciences, Chemistry, ...) supplemented by quality training
- A good knowledge of the applicable regulations and norms: ISO 17025, ISO 9001, ...
- Min. 3 years of experience in a QA function, ideally in a scientific sector
- Broad scientific interest is expected. Knowledge of genomics is a plus.
- Good communication skills
- Excellent spoken and written English and French

We offer

- A full time position for up to 3 years
- The chance to be part of a dynamic team in an interdisciplinary and international research environment.
- Open-minded and family-friendly working conditions.

How to apply?

Please send your resume, your cover letter and contact details of at least two references to rh.giga@ulg.ac.be and carine.bebrone@uliege.be specifying as subject heading "Quality Manager – GIGA Technology platforms" by June 30th, 2019.
